Permite transportar gráneles sólidos en contenedores

*To transport solids in bulk*

**Producto que permite transportar gráneles sólidos en contenedores marítimos de 20' y 40' de forma segura sin riesgo de contaminación. Esta solución permite reducir los gastos frente a las bolsas, cajas o los big bags.**  
Gránulos de plástico | Desperdicios de corcho | Lodo seco | Cereales | Azúcar | Café | Granos de cacao | Té | Piensos para la acuicultura

*The liners are installed in standard 20' and 40' containers depending on the specific weight of the product in order to transport solids in bulk. The liner protects the more sensitive cargos from the external environment and ables the transport of large quantities per container with low packaging costs.*

*Plastic granules | Cork waste | sludge dry | Grains | Sugar | Coffee | Cocoa Beans | Tea | Feed for aquaculture*

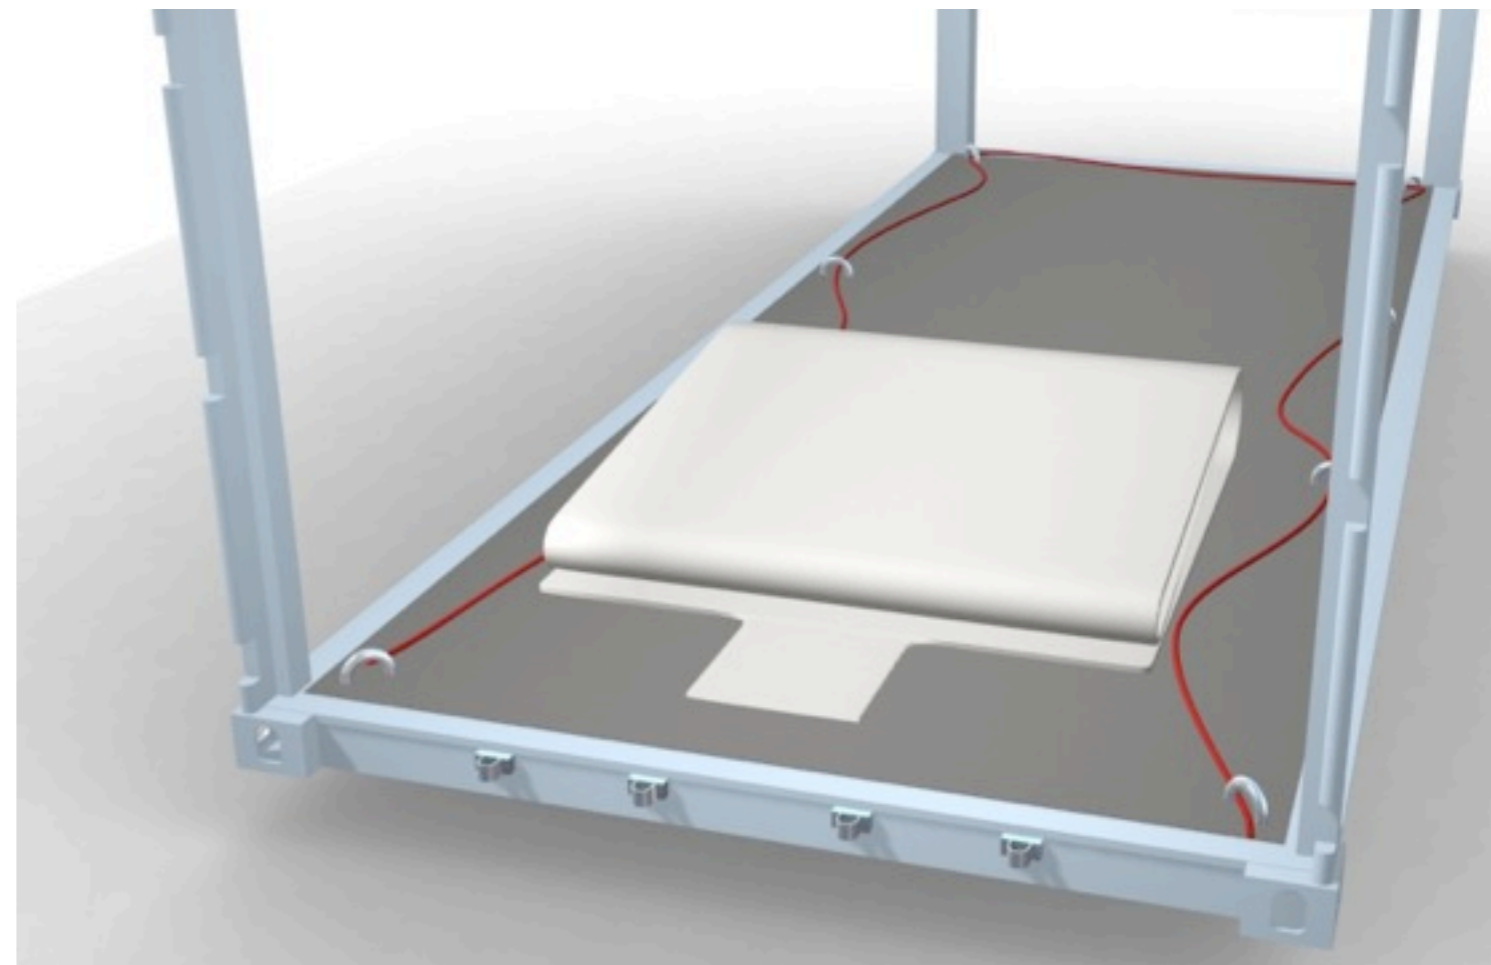

## CARACTERÍSTICAS:

- Transporte higienico y seguro libre de contaminación.
- Control de polvo.
- Transporte de alimentos a granel en máximas condiciones de higiene.
- Fácil llenado, armado e instalación. Bajos costos en mano de obra, material, transporte y limpieza.

## CHARACTERISTICS:

- *Safe and hygienic transportation, free from contamination.*
- *Dust control.*
- *Transportation of bulk foodstuff with maximum hygiene conditions.*
- *Easy to fill, fit and install, cost saving on labour, material, as well as transportation, packaging waste and cleaning.*
